

# Title here

## Sub-title, if there is one.

Bulk text– we suggest using 13 or 14 pt. font as much as possible. Definitely don't go smaller than 12 pt. You may use different fonts, but they should be easy to read.

Please arrange your text however you like! You can play around with how it's presented by inserting different text boxes, changing the number of columns, adding bulleted lists, etc.

We do recommend that you use one larger picture, rather than several small ones. That tends to look more professional.

See completed examples at [www.geriaticsppt.org](http://www.geriaticsppt.org), by clicking "Consumer Information."
